

DEEPA MUDAKAVI
Data Annotation Engineer | ADAS Data Annotator
Email:deepamudakavi297@gmail.com
Mobile: 8867590872

SUMMARY

AI Data Annotation Engineer with 3 years of experience in ADAS dataset labeling, 3D annotation, and LiDAR data processing. Skilled in semantic segmentation, object detection, and multi-sensor data annotation for autonomous driving applications. Along with annotation expertise, recently developed skills in Data Analytics including dashboard development, data transformation, SQL querying, and data validation to support data-driven decision making.

SKILLS

Annotation & ADAS Technical Skills

- 2D Image Annotation
- 3D Bounding Box or Cuboid Annotation Platforms
- Semantic Segmentation & Instance Segmentation
- Lane & Drivable Area Annotation
- Video Annotation & Object Tracking
- LiDAR Point Cloud Annotation
- Sensor Fusion Data Annotation (Camera, LiDAR, Radar)
- ADAS Dataset Annotation (Vehicle, Pedestrian, Cyclist, Traffic Signs, Traffic Lights)

Programming & Data Skills

- Python (Basic – Data Processing)
- SQL (Data Validation & Querying)

WORK EXPERIENCE

Data Annotation Engineer

Anmerkung Solutions Pvt. Ltd – Data Annotation Engineer – Bangalore
Nov 2019 – Oct 2022

- Annotated ADAS datasets including vehicles, pedestrians, cyclists, traffic signs, traffic lights, and lane boundaries for autonomous driving models.
- Performed high-precision lane marking and drivable area annotation to support Lane Departure Warning (LDW) and Lane Keeping Assist (LKA) systems.
- Worked on 3D bounding box and cuboid annotation using LiDAR point cloud data for object distance and depth estimation.
- Annotated data for ADAS functions such as Adaptive Cruise Control (ACC), Automatic Emergency Braking (AEB), and Forward Collision Warning (FCW).
- Integrated multi-sensor data (Camera, LiDAR, Radar) for accurate object detection and environment perception.
- Performed occlusion handling and edge case annotation for real-world driving scenarios (night, rain, fog, heavy traffic).
- Followed OEM and ADAS industry annotation standards to ensure high model training quality.
- Conducted quality validation and peer review to maintain annotation accuracy for safety-critical ADAS systems.
- Supported model improvement by providing feedback on false positives/negatives in ADAS detection outputs.
- Contributed to datasets used for autonomous driving perception and driver assistance system validation.

Data Analyst Intern

Learnvista Pvt. Ltd – Bangalore
Feb 2025 – Aug 2025

- Built interactive dashboards using Power BI and Excel to analyze business and operational data.
- Performed data cleaning, transformation, and KPI-based reporting to support decision-making.
- Developed SQL-based database automation and reporting modules for inventory management.

ACADEMIC QUALIFICATIONS

Bachelor of Engineering (Electronics & Communication) Basaveshwar Engineering College, BAGALKOT, India	2016-2019
Diploma (Electronics & Communication) Government Polytechnic College, Vijayapur, India	2013-2016

CERTIFICATIONS

- IBM Data Analytics Certification
- Data Visualization – Business Insights
- Deloitte Data Analytics Simulation (Forage)
